Superior Quality by Japanese Process

Anchor's Switchgear is manufactured in its state-of-the-art facility at Haridwar, currently possessing an annual manufacturing capacity of over 25 million switchgear products.

Panasonic has brought its best practices that have been fine-tuned for nearly a century to equip our facilities with best in class manufacturing technology. In 2011, Anchor started its Switchgear Design and Development Centre in New Delhi. Panasonic has brought in stellar innovation in this business vertical of Anchor bringing in the globe's best technology offerings to India. The facility houses the latest injection moulding machine latest automatic welding machines and a in-house welding shop. Some of the most advanced technological instruments such as Semi-automatic yoke riveting machines, Production test equipments, testing panels and HV testing machines ensure consistent upgradation in the manufacturing standards. Anchor's Testing Lab is also equipped with latest instruments for "RoHS compliance" testing. It is extensively focussed on upgrading the testing machinery ensuring consistency in the product quality through specialized instruments like 10x profile projector/salt spray chamber & spring load testing machines.

The Haridwar facility is certified by TUV for ISO- 9001-2008. All switchgear products are manufactured and tested as per the IS/IEC standards defined by BIS.
